DETAILED ACTION

This Office Action is in response to the RCE filed 11 September 2006.

Allowable Subject Matter

Claims 1,4-5,7,9-10,12,15-16,18 and 20-21 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1,4-5,7,9-10,12,15-16,18 and 20-21 are allowable because prior art does not disclose alone or in combination along with the limitations of the independent claims such as depletion regions predominantly spreading in directions along the surface of semiconductor layer between said second semiconductor region and each of said plurality of first semiconductor regions configured to deplete said surface portions of said semiconductor layer completely in a state in which a reverse bias is applied between said first electrode and said second electrode; wherein said surface portions of said semiconductor layer receive incident light predominantly in the surface of said semiconductor layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2822
